SAT/ACT Test Prep

It is not too late to raise your SAT/ACT scores this year! Get access to Montfort's full collection of Test prep materials. Take weekly, full-length practice tests, and attend lessons in Math, Reading, Writing, and Science (ACT) taught by our experienced instructors.

Just Practice

By practicing 100s of questions the student is involved in improving their skills to understand various concepts. This program will allow the students to actively practice their coursework instead of passively learning it.

Advanced Placement (AP) Courses

AP Courses help you improve your overall GPA and increase your college admission chances. The rigor of these courses can be minimized by expert tutoring and test-taking skills. Take weekly practice tests and improve your scores.

Computer Programming (Java, Python, & Android)

Programming using Java / Python languages is introduced using popular IDE's like Eclipse. Students already familiar with Java can also learn Android Development using Android Studio. Students will start with creating simple programs and then enhance them using input/output, calculations, decision making, and loops.
