SAT Test Dates	ACT Test Dates
August 24, 2019	July 13, 2019
October 5, 2019	September 14, 2019
November 2, 2019	October 26, 2019
December 7, 2019	December 14, 2019

Computer Programming (Java, Python, & Android)

Programming using the Java syntax & Python are introduced using a popular software's called Eclipse & PyCharm respectively. Student already familiar with Java can learn Android Development. Students will start with creating simple programs and then enhance them using input/output, calculations, decision making, and loops.

Students will learn how to:

- Define and implement classes and methods as well as document code.
- Understand objects, return types, and parameters
- Understand basic inheritance, errors, method calls, and decision making
- Produce fully functional and well documented code using the language of choice
